

I strongly oppose the rule changes applicable to our news media on which you will vote on Monday. The media is supposed to be the guardians of our democracy. With Clear Channel the opposite has occurred. What used to be local stations with individual news coverage has become one huge corporation offering nothing but conservative programming. Then we had war coverage which was nothing more than cheerleading for the administration. In addition, they have provided almost no information on this very issue which is so vital to this country. Just because you are able to do this doesn't mean it is good for the country. Please do not vote in favor of these changes. Thank you.
